### Validate the following:

- The pages displays as per web standards
- Drop down lists are loaded correctly:
  - Jurisdiction** (SURVWEB\_REF\_JURISDICTION TABLE)
  - Other variables?**
- Paging will be available in the list grids to show ten at a time and add paging when there are more than ten rows of information. Keep the current sort order when paging.
- Sort list as follows: Report Date Ascending
- No more than the maximum number of characters can be entered into the following fields:
  - Number of Cases – 5 digits
- Date Fields: (Report Date)
  - Display should include label, entry field, calendar icon, and format [Label:  (mmddyyyy) ]
  - The calendar controls works correctly.
  - Display “Invalid Date” below Date field that is not a valid date (i.e. does not have a valid month day year combination) as soon as the user leaves the field. Earliest valid date is 01011800.
  - When click the calendar icon and select a date, keep the cursor on the date field so the user can tab to the next field.
- For numeric fields (Number of Cases) use JavaScript to not allow entry of characters.

- h. When the “Remember Jurisdiction and Report Date” is selected, the jurisdiction and report date will be populated on the Add screen for future records during this session.

### Buttons & Links

- a. Error Messages - Validation to display messages to the user will NOT be performed on **Clear** and **Cancel** buttons
- b. **Waiting** - When click a link that will bring up another page, display a popup with the pyramid image and a message such as of “Working, please wait...” as per standards.
- c. When click **Save**, validate the entry fields in that section and their combinations.
  - i. If passes validation,
    1. Add those items to the database
    2. Return the Animal Bite Search Results page.
  - ii. If fails validation, display the error messages above the entry fields in that section.
- d. When click an **Edit** link to edit a record,
  - a. Pop up the Update Animal Bite page with the information for that row in the fields
- e. When click **Remove** link to remove a record, return the popup to confirm the remove.

- i. If the user clicks OK, remove the row from the grid display and return the Animal Bite Search Screen with the previous search results less the row.
  - ii. If the user clicks Cancel, then do not remove the row from the grid display and return to the Search Screen with the previous search results.
- f. Sorting - When click a column header in a grid, check to see if the sort is currently on that column. If so, sort the list on that column ascending or descending (opposite of what it currently is). If not, sort the list on that column ascending. Dates sort include the month, day and year.
